

Great skiing. Dry loose. No concerning ECT results

Date

Thu, 03/20/2025 - 11:05

Activity

Skiing

Dug a pit and did a ECT. Stayed off of wind-loaded slopes and found phenomenal skiing. On very steep pitches we found some dry loose activity.

We found 175cm of snow

ECTX4@ 168cm

ECTX24@105cm

35 degree slope. 7150 ft

North facing - 10 degrees

Region

Northern Gallatin

Location (from list)

Storm Castle

Observer Name

T. Goodman
